FUNCTIONAL BALANCE PROGRAM: STAYING UPRIGHT IN A CHANGING WORLD In our everyday world we change positions, change directions, change postures. We move ourselves forward, backward, sideways, and turn. And we depend on our balance to keep it all successful. Because our challenges range from activities of daily living through sports performance training, it's important for everyone to train dynamic, functional, movement-based balance as part of an overall strategy for becoming strong, moving well, and staying safe. This 8-week progressive program will give you an opportunity to enhance your dynamic balance in ways that are appropriate for you. Using a variety of movement-based exercises, simple pieces of equipment, and progressive programming, you will challenge your balance and condition your body in a fun and safe environment. By the end of the 8 weeks, you should find your dynamic balance and general conditioning has improved, you will better understand the systems in our bodies that affect balance, plus you will have a toolbox of exercises to continue at home.

PILATES – Beginners The Pilates Method teaches body awareness and control as the basis for all movement. The Beginner Mat class teaches strong, safe movements to incorporate into all your daily activities and sports. You will strengthen your core abdominals and learn how to use them to alleviate and avoid back pain. The Beginner class focuses on the Pilates Basic Mat routine by learning each move in depth to progressively build your core strength. By the end of the term you will have learned the full Basic Mat routine, how to balance on the fitness ball, body awareness and control, and most of all, you will have improved your core strength! No experience necessary.

M/W (Beginner) 4:00 - 5:00 pm Alumni Gym MP Room 182 Naomi Thorngren
Cost: Students-\$76 / Grad Student & Domestic Partner \$95 / Dartmouth College & DHMC Employees-\$123 / Public-\$153

PILATES – Applied Pilates Controlled movements: stabilizing a set of muscle groups while mobilizing another group. This is Pilates! Stabilization before mobilization minimizes injuries, makes impossible moves possible, while bringing a deep understanding of how to use your core effectively for daily life routines and exercises.

We always start the term by learning the 5 basic principles of Pilates. Then we build all the exercises based upon those principles. By the end of the term you will understand how to move your body in the most effective and safe way. We will be working with many different apparatus from stretch bands to balance balls and weights. The results could include: being able to move your body on a simple mat in a way that you never thought you could, applying your knowledge about your body and movements to your favorite sport to improve performance, avoiding possible injuries in daily life and relieving (or sometimes eliminating) pain from past injuries.

*Although this is an intermediate class, we will spend the first 2 weeks with slow and seemingly easy moves. But please be patient! The class will quickly progress to an intermediate and advanced level.

T/TH (Intermediate) 4:30 - 5:30 pm Alumni Gym Manley 086 Maryam Paydarfar
Cost: Students-\$76 / Grad Student & Domestic Partner \$95 / Dartmouth College & DHMC Employees-\$123 / Public-\$153

PILATES – Advanced The advanced class requires a strong knowledge of the Pilates Basic Mat routine and a readiness to further challenge your core with more advanced Pilates moves. To strengthen the whole body, this progressive class uses the fitness ball and hand weights in addition to the mat work. Both classes are fun and energetic. Pilates is an excellent method to improve core strength and general fitness.

STRONG® - If you like DartFit, Insanity, Tabata or another type of mixed interval program, you'll love STRONG™. STRONG™ is a high intensity interval training program that's music interval based, so there's no keeping an eye on the clock or waiting for a timer to go off. High intensity moves (such as high knees, burpees, jumping jacks, static planks, etc.) are interchanged with lower intensity moves (like lunges, jump rope skips, kickboxing) and even lower-intensity active recovery. A major benefit of the class design is that your instructor adapts the workout to all fitness levels by modifying the exercise intensities, so everyone can take the class, be successful and progress. It's great for the occasional exerciser or "weekend warrior" who wants to add more, consistent exercisers looking to shake up their routines, and even off-season club and varsity athletes. Not recommended for completely deconditioned individuals or those recovering from serious injuries. **9 WEEKS ONLY. ENDS NOV. 15, 2018.**
